**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 03 March 2004.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Rejections Withdrawn***

1. Claims 19-20, 22-26, 28 and 29 rejected under 35 USC 102(b) as being anticipated by Sato in view of applicant's amendment filed on March 3, 2004.
2. Claims 19-29 rejected under 35 USC 103(a) as being unpatentable over Sato in view of the amendment.
3. Claims 44-48, 50-55, 57-62, 65, 67, 69, 71-73 and 75-77 rejected under 35 USC 102(b) as being anticipated by Sato in view of the amendment.
4. Claims 44-78 rejected under 35 USC 103(a) as being unpatentable over Sato in view of the amendment.

### ***Response to Arguments***

5. Applicant's arguments with respect to claims 19-78 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1772

7. Claims 19-25, 27-46, 48, 57-58, 61-62, 67, 69, 71-72 and 75-77 are rejected under 35 U.S.C. 102(b) as being anticipated by La Mers (4,454,180).

La Mers relates to a label sheet construction (190) comprising a liner sheet (126), a facestock sheet (192) adhered to the liner sheet, at least one first cut line (cut line surrounding label 146) through the facestock sheet but not the release coated liner sheet to form a facestock sheet first label releasably adhered to the liner sheet, at least one second cut line (cut line surrounding label adjacent to label 146) through the facestock sheet to form a facestock sheet second label releasably adhered to the liner sheet, and a weakened line segment (196) in the facestock outside of and extending at least substantially from the first label to the second label. The facestock being adapted to be bent back on the weakened line segment to thereby separate the liner sheet away from a portion of the first label. As shown in figure-16, the weakened line segment comprises a cut line through the facestock to the liner sheet, and the cut line engages the first and second cut lines. Also shown in figure-16, the facestock comprises at least one third cut line therethrough but no through the liner sheet to form a third sheet label, with the weakened line segment extending between the second and the third label. The line segments are the same and in a same line. The labels are shown to be circular in shape and positioned in an array. Figure-16 also shows that the label is positioned within a perimeter of the facestock and spaced a distance inside of the side and end edges of the perimeter. The portion of the facestock outside the label is taken to be the waste portion.

***Claim Rejections - 35 USC § 103***

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claims 19-64, 67-72 and 75-78 rejected under 35 U.S.C. 103(a) as being unpatentable over La Mers.

La Mers, as discussed above, fails to teach that the labels are rectangularly shaped. It would have been an obvious matter of design choice to modify La Mers to provide labels of rectangular shape because such a modification in the shape is obvious to one having ordinary skill in the art.

Similarly, the labels having a burst configuration would have been an obvious modification in a change of shape of the label.

Further, it would have been obvious to one having ordinary skill in the art to modify La Mers by providing weakened line segments as discontinuous cut lines, instead of continuous cut line, to facilitate holding the labels in place during processing.

Additionally, when the line segment is discontinuous cut line, it will be spaced from the label cut line a land spacing.

Art Unit: 1772

***Allowable Subject Matter***

10. Claims 65-66 and 73-74 are free of the prior art uncovered so far in that the weakened fold line is a cut line through the facestock sheet but not penetrating the liner sheet.

***Conclusion***

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
